Allowable Subject Matter

1. Claims 1, 5-8, 11-15, and 17-22 (to be renumbered 1-16) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 5-8 17-22, claims 1 and 17 disclose a method and apparatus for controlling the unlatching of an actuator comprising the steps of comparing the internal temperature to a predetermined threshold value, initiating a DC current unlatch process for unlatching the actuator if the internal temperature is greater than the predetermined threshold value and in the alternative, initiating an AC current unlatch process for unlatching the actuator if the internal temperature is less than the predetermined threshold value, which is neither disclosed or an obvious variation of the prior art.

Regarding claims 11-15, claim 11 discloses an apparatus comprising a controller responsive to a value of a thermistor selecting an unlatch process that unlatches an actuator of the apparatus with an unlatch procedure programmed into the controller executing a DC current unlatch process if the thermistor value falls within a first range of predetermined values and an AC current unlatch process if the thermistor value falls within a second range of predetermined value, which is neither disclosed or an obvious variation of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
